The year under review has also witnessed successive interest hikes which has brought profits under pressure.

The Board of Directors of the Company at its meeting here today, approved the Company's audited financial accounts for the year ended March 31, 2012 and declared a dividend of 5 % to the shareholders.

Hemant Kanoria, Chairman and Managing Director, Srei Infrastructure Finance Limited, said, “ The disbursements have risen this year by 49% but the profits have been under stress, primarily due to steep depreciation of rupee, which has resulted in substantial MTM forex loss and also because of multiple interest rate hikes creating pressure on margins. However, the focus has been on maintaining good quality of assets, as the economy is also facing challenges.”
